# THE COMPLEX

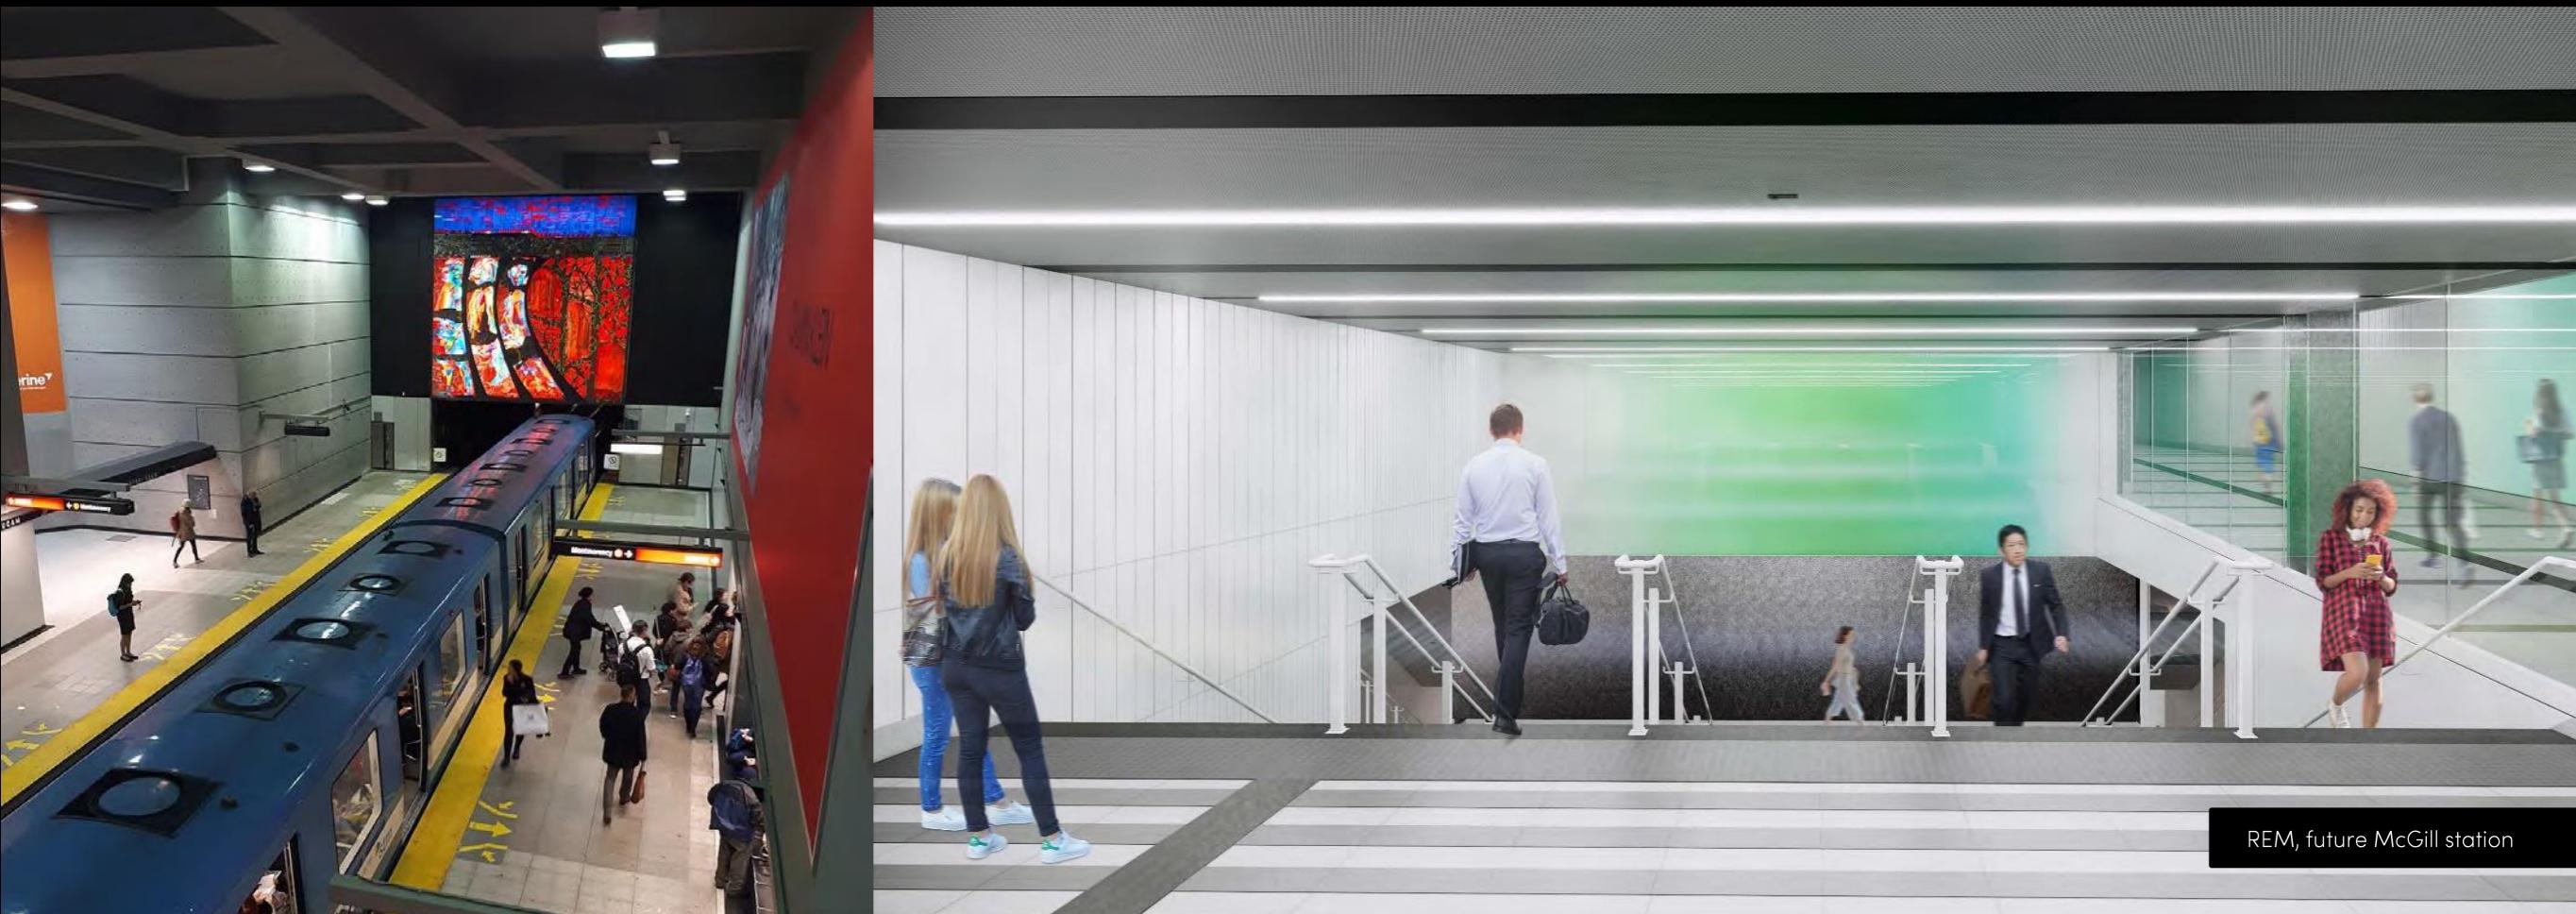

Place Dupuis Complex offers 1.1 million square feet of world-class services set at the crossroads of the Entertainment, Health, as well as the Media and Broadcasting Districts. Prominent in Montreal, the Complex includes two office towers, a commercial concourse, parking facility and direct link to a four-star hotel. The office levels offer great space layout flexibility and sweeping 360° panoramic views of the city, the river and mountain. Place Dupuis is proudly recognized for its achievements in terms of energy efficiency and for the excellence of its environmental property management practices.

# LOCATION AND ACCESSIBILITY

In terms of accessibility, Place Dupuis is one of the most convenient addresses in town. The Complex is pedestrian friendly, situated directly above and connected to the Berri-UQAM Metro station, hub of Montreal's subway network where three main Metro lines converge providing a central axis serving the entire Greater Montreal transit network. It is also directly linked to the city's 32 km underground pedestrian network, to the Bus Terminal (Gare d'Autocars de Montréal), hub for commuter and intercity bus transportation, and is just three station stops away from the McGill Intermodal REM Station. The Réseau express métropolitain network is slated for a progressive opening in 2024.

Cyclists are also favoured by the Complex as it is strategically located at the crossroads of Montreal's famous De Maisonneuve and Berri bike paths. Drivers benefit as well from Place Dupuis' close proximity to both the Ville-Marie and Bonaventure Expressways.

For people travelling by train, the Complex is ideally located just four station stops away from Central Train Station, the major intercity rail station and commuter hub and a mere five stops from the Lucien-L'Allier commuter rail terminal.

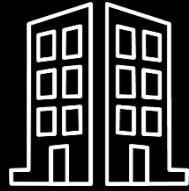

REM, future McGill station

# MAP OF REM INTEGRATED WITH STM AND EXO LINES
